
Concept U-1

When asset owners are considering an allocation to private markets to diversify their investment portfolio and generate yield premium, it might be challenging to understand which firms provide access to the best private investment opportunities that fit their needs.

MetLife Investment Management Private Placement offers institutional clients unrivaled deal access to high quality corporate private placement and infrastructure debt investment opportunities and collaborates with you to construct tailored solutions that help deliver on your investment goals. This is possible due to our local market expertise evidenced by our deal origination in 23 countries globally in past 3 years, strong relationships with bank agents and issuers, and our investment team's deep expertise in private placements with senior professionals having 20 years of industry experience on average. In addition, our disciplined investment underwriting, robust credit research, and comprehensive risk management does not change with market demands.

Our clients have a dedicated and accessible portfolio manager who is prepared to help you navigate ever changing market conditions through active partnership. And, a single-point client relationship manager will provide high-touch client service through transparent and proactive communication.
