
Private Placement Proof Point Statements

Customized solutions that deliver on the unique needs of asset owners

- We start by listening to your needs and objectives, and then work together with you to construct a tailored private placement investment solution that meets your unique needs.
- We offer customized private placement investment solutions by sectors, maturities, country, currency and structures as fixed and/or floating rate debt
- While you will have a dedicated and accessible senior portfolio manager who has an average of 20 years of experience in private placements and about 15 years together as a team. you also have access to the private placement leadership team as well as the broader team of 55+ professionals who collaborate to uncover opportunities and tailor private placement investment solutions
- Our investment approach starts with rigorous credit analysis to facilitate the selection of credits we feel have appropriate structures, robust protections, and attractive relative value. We also utilize our firm's size and presence to seek access to new deals and receive favorable allocations.
